

# SUNSHINE COAST COMMUNITY FOREST

("SCCF")

## RECREATION POLICY

The Sunshine Coast Community Forest (SCCF) will promote and enhance recreation in its tenure area to improve community members' experience and enjoyment of the woods. This will include working with recreational groups and land agencies, First Nations and local governments regarding culture and heritage, safety, replacement of trails and impact on water quality and quantity.

SCCF will identify and assess sanctioned trails within a proposed harvest block and comply with any Regulation concerning those trails.

Plans will be made to reduce any impact to sanctioned trails and recreational sites as part of the engineering investigation and planning process prior to proceeding with any harvesting activities:

- Maintaining access
- Coordination with recreational groups and land agencies
- First Nations and Logging heritage
- Replacement of sanctioned trails
- Augment sanctioned recreational trails
- Reconstruction of impacted sanctioned trails

We will be supportive of others in the following matters:

- Development of plans to enhance the recreational opportunities within our tenure area including identifying a database of existing facilities and services
- Monitoring responsible use
- Development of a demonstration and interpretive forest next to Hidden Grove
- Expansion of Signage

Sunshine Coast Community Forest is operated by Sechelt Community Projects Inc.
