												<b>193.6</b>	<b>179.9</b>	<b>123,340</b>												

**Assessment Definitions:**

- AIA:** Archaeological Impact Assessment
- CA:** Cable harvest system
- GB:** Ground base harvest system
- HAB:** Habitat Survey by a qualified professional
- HE:** Helicopter Harvest System
- HS:** Helicopter Select
- TSFA (THA):** Terrain Field Assessment, also known as Terrain Hazard Assessment.
- VIA:** Visual Impact Assessment
- WATER:** A Hydrologic Assessment when working within community watershed (FSP Result & Strategy)

**Block Status:**

- Proposed Review and Comments
- Engineered Assessment completed
- Cutting Permit Cutting Permit acquired

**Note:**

The gross area of the cutblocks are shown on the maps and tables. The gross area includes Wildlife Tree Retention Areas (WTRAs), riparian reserves, and other buffers or reserves that may be required depending on the site. As such, the total area shown on the map may not be fully harvested. Site specific comments or concerns of potential impacts to your interests can help SCCF relate your comments to our operations so we are better able to assess them and where appropriate manage for these values in our final plans.
